

Quality Policy

1.0 QUALITY POLICY OF VIRIDIAN SOLAR LTD.

The policy of Viridian Solar Ltd is to design and supply high quality Renewable Energy Systems at a competitive price and delivered on time to meet the requirements of our customers. We aim to supply safe products which are fit for their intended purpose and which will have a long and trouble-free life.

Viridian Solaris committed to the continual improvement of all processes used to deliver the products and services provided to our customers. We will maintain a responsible attitude with regard to our customers and employees, safety, the environment, and comply with the relevant statutory and regulatory requirements.

We will ensure that the quality of raw materials, components, equipment and services we receive are of a standard which will benefit both our customers and ourselves.

We will encourage an attitude of continuous improvement by building close relationships with our suppliers.

We shall apply corrective and preventive action to further reduce costs through the investigation and elimination of ineffective operations, and through feedback into good product design. The company will review the effectiveness of this policy using activities such as audits and management reviews, and also in terms of the customer satisfaction we generate. The management review process will set and review the Company's objectives for Quality, so that the system may progress in line with practical experience, customer requirements, and advances in technology.

This policy and its associated procedures are to be followed by all employees. We will encourage each employee to understand their role in the operation of the business and ensure that they are properly trained to perform it. The Company will provide adequate resources and training to ensure this policy of continual improvement is effective.

In order to achieve the above, the company will maintain a management system that as a minimum will conform to the requirements of BS EN ISO9001:2015.

Mr. Stuart Elmes
Managing Director

Date effective: 2nd March 2022
